

Fiber cable mounted SAM data sheet SAM- λ -A- τ -FC/PC

GaAs chip thickness standard: 450 μ m
Front side protection the SAM is protected with a dielectric front layer.

The SAM chip is glued on one side of a singlemode fiber patch cable with FC/PC or FC/APC connector.

- The **standard** cable length is 1m.
- **Optional** the SAM can be mounted on special fiber like polarization-maintaining Panda fiber.
- **Optional** the fiber mounted SAM can be attached on a [passive](#) heat sink or [active](#) heat sink with thermoelectric cooler.
